Change of mind

Students who wish to change their module choices may, subject to availability and within timetabling constraints, be able to do so by the end of the second week of semester one 2021 and by the end of the second week of semester two, 2022. All 'change of mind' requests must be processed through the School of Computer Science and Statistics administration. It may not be possible to accommodate these late requests, which are subject to availability etc.

Timetabling Constraints

The formal lecture timetable will be arranged during the summer months on the basis of module choices submitted in April. It may not be possible to accommodate students who submit their module registration form late or who wish to avail of the change of mind module choice forms. Therefore, we urge you to give careful consideration when selecting your module choices
